If your law firm had  
**its own**  
**IT**  
**Department ...**  
**... oh**  
**the things you could do.**

4 Reasons law firms are asking ActivMindz to become their firm's IT department:

- 1) **Stability** and reliability of maintaining their computer network.
- 2) **Ability** to use the advanced tools used by the high-priced attorneys at large firms.
- 3) **Utility** of a help desk that can be called on to answer any IT calls, great or small, from attorneys, paralegals and secretaries.
- 4) **Fire-ability.** With no long-term contracts, there is no risk to taking on ActivMindz. If you are ever dissatisfied or your needs change, you can easily cancel the service.
